## march of Dimes: a history of success

The March of Dimes helps moms have full-term pregnancies and healthy babies. And if something goes wrong, we offer information and comfort to families. We research the problems that threaten our babies and work on preventing them.

Since its founding in 1938, March of Dimes has consistently excelled at bringing together key stakeholders to address some of the world's gravest child health challenges. The March of Dimes lone concern has always been to give children a healthy start. We first defeated polio, then we brought together the first concerted effort to focus on birth defects. Today, we continue that quest and are simultaneously addressing the crisis of premature birth.
