2021 Chicago Ambassador Family

Melissa, Javier, Jade and Dominic Zambrano

After an unexpected birth at home, Dominic was born at 28 weeks weighing only 3 lbs. 3 oz. He and his mother Melissa were transported by ambulance to Advocate Illinois Masonic Medical Center, where Dominic was in the NICU for 8 weeks. Shortly, after he was diagnosed with pyloric stenosis and had to undergo surgery to correct the problem.

Today, Dominic is remote learning in kindergarten. He is active in swimming classes and has joined his sister in class learning Brazilian Jiu Jitsu. He will be 6 years old this coming April and is an energetic, adventurous caring little boy. He loves hanging with his sister and can't wait to go to school in person soon.
